

PROBLEMS OF PINE TREES

When planting pines, especially in large plantings, pine wilt disease should be given top priority. The Scots, Red, and Austrian pines are most prone to this problem.

Below is a general summary of the most common problems occurring to most species of pine tree.

**NEEDLES FALL OFF TREE
IN LARGE NUMBERS**

**WHITE PINE NEEDLES
DIE IN THE SPRING**

**NEEDLES FLECKED;
RED-BROWN**

**STICKY BUD TIPS;
NEEDLES TURN YELLOW**

**NEEDLES; BRANCHES
ENCRUSTED; GROWTH
STUNTED**

**YELLOWISH NEEDLES;
TUNNELS IN BARK**

**NEEDLES WILT;
CANKERS ON TRUNK**

**NEEDLES DISCOLORED;
DROP PREMATURELY**

**BARK OF TRUNK AND
ROOTS GNAWED**

**FOLIAGE EATEN; BARK IS
DAMAGED IN FLAT STRIPS**
